Website: www.moldedproducts.com

Molded Products specializes in producing quality products for the medical, commercial, and industrial fields. Located in Southwest Iowa, Molded Products is close to transit routes enabling quick delivery times to all parts of the world. We maintain a complete tooling facility for moldmaking, machining and 24 hour a day injection molding.

Design...By utilizing state of the art technology for design, we have the ability to develop the product not only from a print but also from a model or sample. This technique allows for design flexibility, elimination of costly errors, and a reduction in time to market.

Services...We offer a variety of services which make our injection molding plant increasingly competitive. Our wide range of equipment allows us to produce parts as small as 1/32 of an inch up to 6 oz. per shot. Molded Products can competitively produce miniature parts for the electronic/computer industry as well as mold the larger parts required in the hydraulic, agricultural, oil field, and automotive industries.

Services Available:

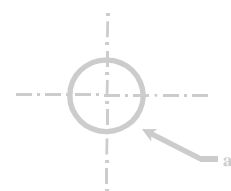

- Design Assistance
- Custom Injection Molding
- Assembly
- Custom Packaging
- Tool Making
- Production CNC Machining
- Sonic Welding
- Secondary Machine Operations
- Hot Stamping
- Insert Molding
- Fabrication & Welding

Exotic materials are not a problem!

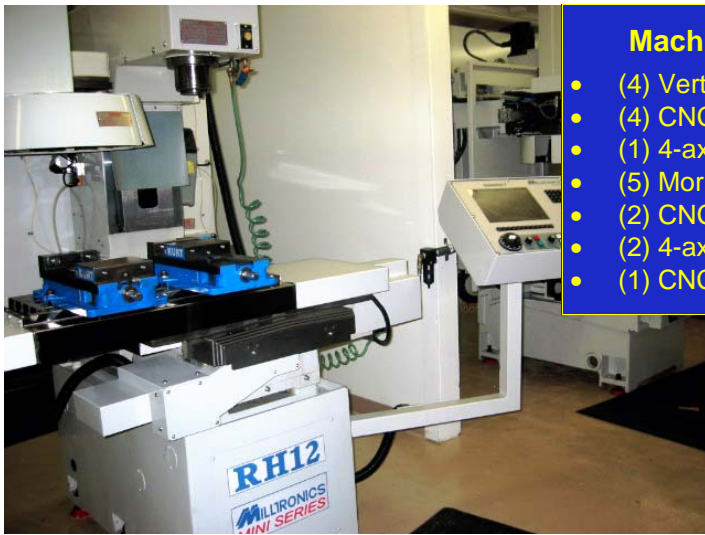

We are experienced, and equipped to handle virtually all types of materials, including:

- PVDF
- Polycarbonate
- Ryton
- Nylon
- ABS
- Polypropylene
- Polyethylene
- Acrylic
- Polysulfone
- Valox
- Santoprene
- PVC
- Brass
- Aluminum
- Stainless Steel

ASK ABOUT OUR NEW MOLDABLE UHMW ALTERNATIVE TO MACHINED PARTS!

Our experience and knowledge have been the keys to our success...

Machine Capabilities

- (4) Vertical Machine Centers
- (4) CNC Mills
- (1) 4-axis CNC Mill
- (5) Mori Seiki Turning Centers
- (2) CNC Tool Room Lathes
- (2) 4-axis Wire EDM
- (1) CNC Sinker EDM

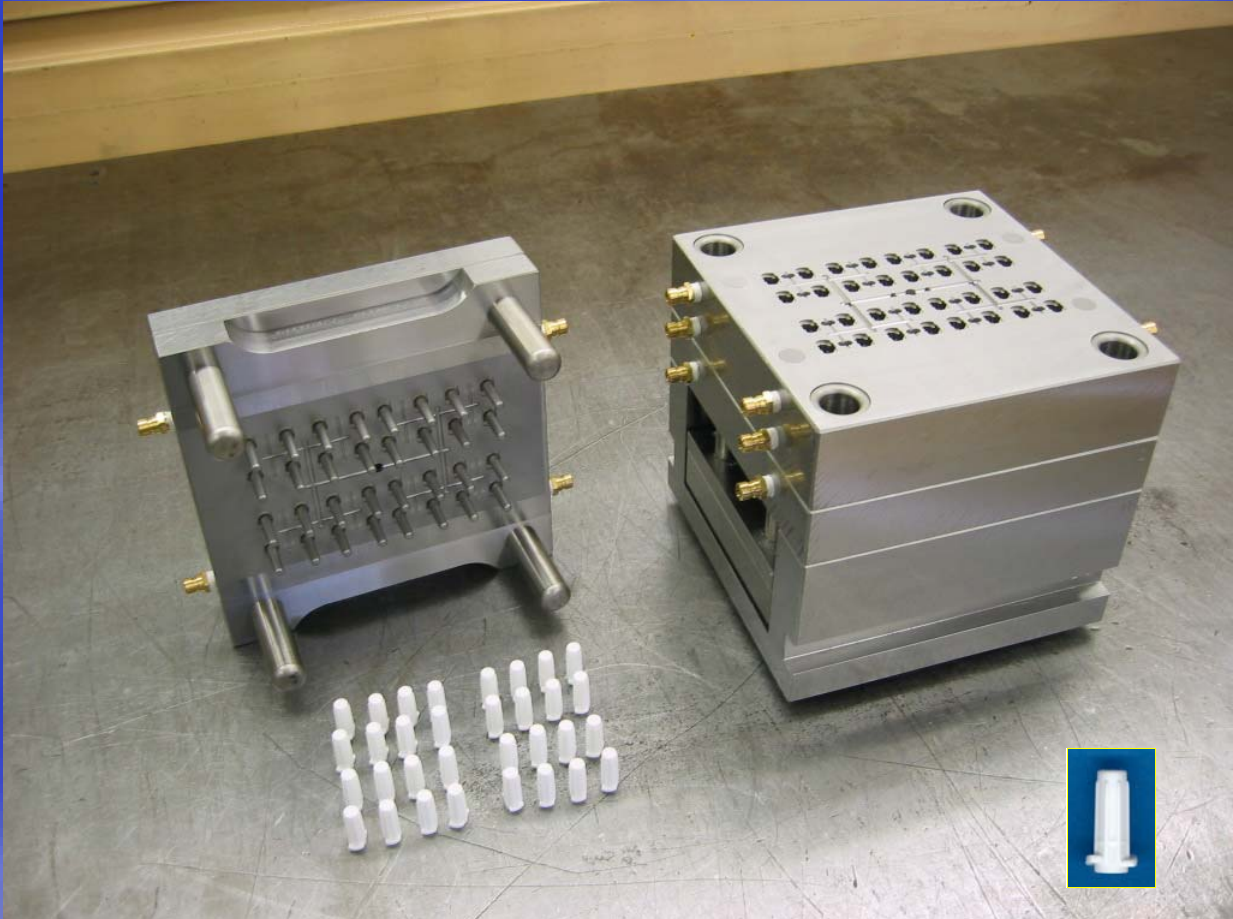

Inspection... In-process and final inspections are conducted on each product lot manufactured. This constant attention to quality control further ensures that the customer's requirements are continually being met and adhered to.

Production... Molded Products is a leading manufacturer of high-quality injection molded products. We utilize various sizes of injection molding machines as well as an excellent group of experienced toolmakers. When the 21-injection molding machines are at full production, they can produce up to 50 million parts a month.

We are committed to high-quality products, affordable pricing, and on time delivery.

7 Weeks from Concept to 3 Million Parts

If you have been considering plastics, but were put off by the high price of tooling, give us a call and let us show you how affordable custom injection molded parts can be.
